

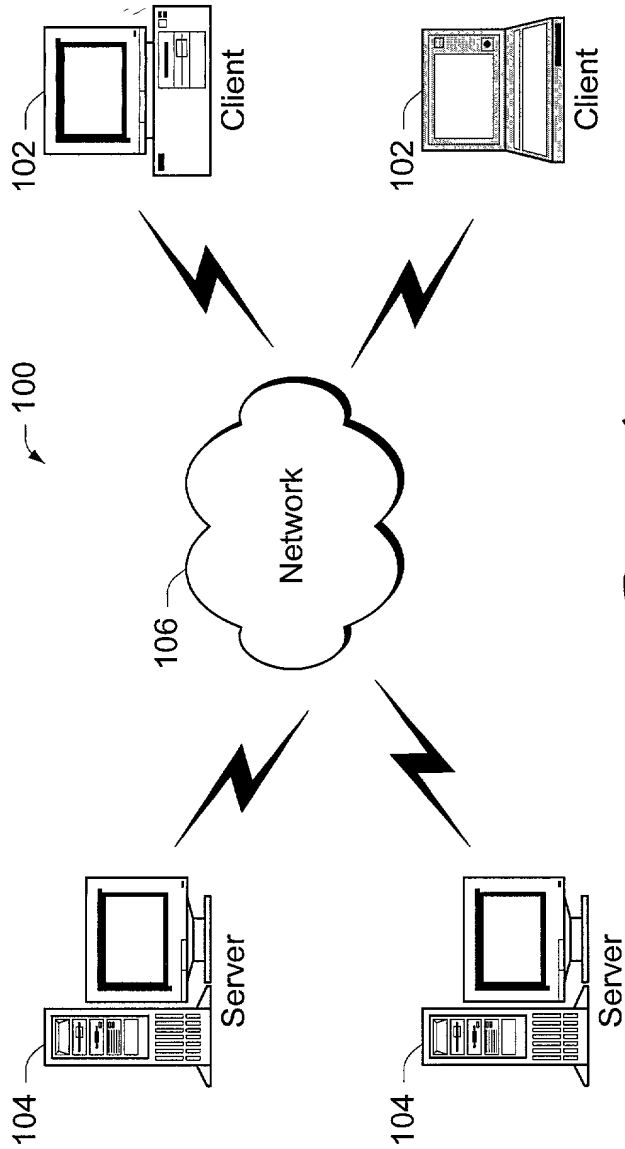

FIG. 1 is a schematic diagram of a network system 100. The network system 100 includes a central network 106, which is connected to four client devices 102 and four server devices 104. The client devices 102 are represented by a desktop computer and a laptop, while the server devices 104 are represented by a tower server and a rack server. The network 106 is depicted as a cloud, and the connections are shown as lightning bolts, indicating a wireless or high-speed network connection.
